The following google drive is filled with media created by folks on the SaveOFMD Crew that have given permission for you to use in any context regarding the renewal campaign. The files are tagged with names, and the file name will have the artist name in it just before the file type. Please credit the creator on any platform you are sharing on.

Looking for some gifs to use with your posts to the various platforms? Several of our awesome crewmates have given us permission to share some of the ones they've made!

PLEASE NOTE: These gifs take a long time to put together and really are an art, so please be sure to tag the gif-maker wherever you're posting or link back to the individual source you got them from

(Ex: If we link to a tumblr page, use the tumblr page link as opposed to the repo)
