02/23/2024 1:26 am EST

TLDR; Rhys Darby's 3 cameos Jeez; Clowning/Honking (no clown pictures); PhoneInFriday in the UK; SaveOFMD Crew Events on IG; Fan Spotlight; Custom Jackets; Collages; Chxrlotte New Song: OFMD; Morale/Love Notes;

## == Rhys Darby ==

Good god, 3 Cameo's today? I hope you all enjoy dopamine-- remember to take a break in between because SHEESH. My brain overloaded real bad on #VitaminRD.

## = Cameo 1: =

The latest cameo features Rhys as Murray from Flight of the Conchords Thank you [@it\\_llpass](#) and "The Maybe Dids", a group of FotC fans, for getting this cameo and sharing it with everyone! Rhys's Giggle Bytes have come to bring you the sheer unbridled joy of Rhys sharing his love of Robots with us. Our very own Rambling Robot with a fleet of his own.

This cameo was put together by [NDKiwi](#) and The Giggle Bytes (and special thanks to [@yronnia](#) for keeping me in the loop, I've been waiting for this one since you mentioned it!

The Giggle Bytes are a group of fans who really love Rhys and his Robots and sound effects!

Thank you to everyone who was involved in getting this wonderfully whimsical video made!

These incredible images are being brought to you by the dedicated clowneorologists at the HWCC. Please note that this storm footage does not constitute explicit honking instructions from our captain, but general clownery is highly encouraged. [#SaveOFMD](#) [#AdoptOurCrew](#)

Thank you to the HWCC for this wonderful clowning video! Rhys scared the crap out of me in the first 6 seconds, so CW with jump scares friends.

## Speaking of clowning...

### **== Clown/Honk Alert ==**

So normally I would leave this in the cast & crew section, but they're part of the honking narrative today so here we go!

The very first thing today that triggered some honking was Con O'Neill posting on his IG page the Rotten Tomatoes stats (which btw I know a lot of you have been reviewing-- and it's totally working! Those numbers have gone up from the last time I looked! GREAT JOB!)

Annnnd to continue the clowning, Rhys JUST SO HAPPENED to take a little hiatus from Cameo until March.

*"Hey guys, got a busy  
couple of weeks  
ahead so I've had to  
pause Cameo till  
March!"*

Okay so **AND THEN**, a sweet article from Paste was published today, and in it, Vico Ortiz talks about the SaveOFMD effort! See some of that article below!

- [These Them's' Vico Ortiz and Gretchen Wylder Talk Industry Obstacles to Making Queer Stories](#)
- If you've never seen These Them's' Please watch them [here](#) on youtube!

While Max's promotional push may have provided false hope, the real inspiration to Vico Ortiz has been the *Our Flag Means Death* fandom. Fans organized food deliveries to the picket line mid-strike, raised nearly \$20,000 for RainbowYOUTH, crowdfunded a Times Square billboard for the show post-cancellation, and continue to support fundraisers for Gazans in need.

"The way in which people have been mobilizing has me very, very energized. Incredibly proud, and not just with the campaign to save *Our Flag*. I'm watching the community. I'm watching how every single one of y'all are not just mobilizing with this but for everything. Y'all have fundraised for so many different types of organizations and causes," Ortiz says, later adding: "It also makes me hopeful seeing how y'all are mobilizing and are incredibly earnest and passionate about seeing queer content on TV or wherever that may be. It makes me, as a producer, as a writer, as an actor, excited to know that there is a community of folks who are going to support queer content that I make and attach myself to with friends that are also queer creators, and writers, and producers, and actors, because I want to give it to y'all."

Now, this is all pure speculation, but the scuttlebutt around the bronzetub booze cooler is there seems to be a LOT of engagement from multiple cast members across MULTIPLE platforms SPECIFICALLY having to do with the renewal.

All of that + Vico having an article published giving shout outs to the crew?

AND Rhys deciding to take some time off (which could be because he's cranking out cameos like no tomorrow, or because he found out what Vianton means, we don't know) all together in one day--- FOLLOWING multiple days of BTS and increased engagement on all platforms... **it seems like a perfect storm for clowning/honking.**

I found this on @Mytabsclosed Twitter after writing this up, so it's definitely the TLDR; version:

## == Chxrlotte New Release! ==

Chxrlotte is a UK artist that gained public attention after the release of their Good Omens song "Come With Me".

She's just released a new song "Message In A Bottle" which is all about Our Flag Means Death!

Thank you @libbyroseitm for sending me the deets on this! Please give it a listen! It's really lovely.

"Message In A Bottle" On Spotify

shutupchxrlotte Message In A Bottle. Out 23/02/24. I am sooooo excited about this songg. It's by far and away the most cinematic thing I have ever done, it has a VIOLIN SOLO, performed by the stupidly talented @otsanda\_221. Also, if you've written with me, you know I never let anyone anywhere near the lyrics. But it's different this time because the incredible @genevieve.libien is just that good. Genevieve and I wrote all of the lyrics together in the span of three writing sessions and they turned out SO beautifully. This song is written about Our Flag Means Death. I LOVE this show and everyone who helped with this song and all of you and I cannot wait for you to hear it

## == Morale / Love Notes ==

Wow friends. Today was a big one. Lots and lots of trending, lots of cameos, lots of honk honk honking. It was seriously busy.

I hope some of the activity has helped raise some spirits!

The cast & crew are definitely seeing our efforts and really showing us they are! Remember that when things feel down, they know we're fighting and they're behind us too!

**Vico's words:** "It also makes me hopeful seeing how y'all are mobilizing and are incredibly earnest and passionate about seeing queer content on TV or wherever that may be. It makes me, as a producer, as a writer, as an actor, excited to know that there is a community of folks who are going to support queer content that I make and attach myself to with friends that are also queer creators, and writers, and producers, and actors, because I want to give it to y'all."

And to end on-- words from Rhys' own mouth today in one of his cameos:

**"Don't Stop Clowning! Until you get arrested!"**

=====

Okay lovelies. It's that time again for me to be annoyingly loving towards you. I hope

you're ready!

**Did you know you're doing an amazing job?** Like, a fucking stellar job.

Whatever you're struggling with, however you're coping, you're kicking ass!

**You are still here with us, and I am so fucking grateful for that!**

I know sometimes it's really hard to give yourself self-love (I am in fact terrible at it), so I just wanna take this moment to let you know I am rooting for you! **Everyone on our crew is rooting for you!**

You are doing your very best, and there's no one in this world who can compare to you and what you're going through. **Your struggles are hard, but you are making it through because you are a strong, resilient, powerhouse of a human being!**

**YOU** are a force to be reckoned with.

**YOU** are a kind and caring soul who puts so much good into the world.

**YOU** are an inspiration.

**YOU** are mind-blowingly amazeballs (that's the technical term) **and you are going to do marvelous things no matter how big or how small they are.**

I believe in you and so does everyone on your crew, whole-heartedly.

When you're ready, go shine lovelies, **you deserve to shine.**
