== Repo News ==

Hey all! Sorry it took so long.. I finally got the Renewal Repo Resources up with approved resources this time. I also added a new permission form so if you'd like to offer up your creations to be added to the repo for the purpose of sharing (with or without credit) you can do so and choose how your creations will get to be used.

If anything on that form doesn't make sense or doesn't include something you feel needs to be included, please reach out to me! I got lots of feedback but I know there's always room for improvement, and I want to make sure I'm covering everyone's bases.

Please Note: This form is for shareable media. For "Fan Spotlight" I'll still be reaching out individually and those will be in a completely different part of the repo and not for sharing purposes.

== Love Notes ==

Hey lovelies. I hope if you were able to get outside today that it helped a bit with giving you some relief. Nature really can be healing, as the captain says. If you weren't I hope you got to do something fun, like make a gif, read a fanfiction, eat something you love, and get some rest.

Just wanted to remind you that you can do anything.

You can write that fic. You can draw that art.

You can learn that language, or that subject you want.

You can get that new job, or take that break.

You can make it through another day, even when it feels like you can't. Remember that.

I believe in you <3 The crew believes in you <3

If you don't already, one day I know you'll believe in you too.

Sending all the love <3

To Quote @bossbabe.inc "yes the fuck you can".

In case you needed
the reminder:
yes the fuck you can.
