== Love Notes ==

Hey lovelies, today was a bit of a day all around the world. I hope you're all doing okay. A lot of stuff happened that could have left you feeling a lot of hard feelings. I know it's concerning, and I know it's scary, especially the unknown of it all. If you can, today,

take care of YOU.

Take time to breathe, take time to eat well, and shower, and drink enough water. If you can, watch something funny, cry, whatever you need to do to feel okay.

When the world is uncontrollable, and feels unreachable, and the future unknown, one of the best things you can do is take care of yourself and your loved ones.

[This is a good article](#) on how to ground yourself, if you're feeling out of sorts. It says it's related to triggers but it can be anything really that you need to ground yourself from.

The most important thing in the world is that you're safe, and you are okay, so please take care of you. If you need support, reach out to your crew, we all care about you and your well being.
