TLDR; Butterflies; Taika Waititi; Leslie Jones; Ruibo Qian; Vico Ortiz; Kristian Nairn; Rachel House; Minnie Driver; Bronson Pinchot; Articles; Fan Spotlight: Cast Cards/OFMD Colouring Pages; Love Notes;

Hey lovelies, very short one tonight. Hope you're all doing well <3

== Butterflies ==

Okay so this is a bit out of order today but-- our friends over at Never Left Podcast have a new Episode out! This episode focuses on flowers! [Check it out here!](#)

Now, why is it being spotlighted at the top?

Well they highlighted the butterflies in Ed's hair for episode 5 of season 1 and that has been a revelation for me and quite a lot of other folks!

== Taika Waititi ==

Today is Time Bandits release day! If you have Apple TV it's out and so far I'm enjoying the heck out of it! Please oh please if you can support Taika and Jemaine and all our lovely AonZ folks!

taikawaititi 🌟 It's Time Bandits day! Unofficially. But the show is officially out. We'll, I mean the first two episodes. And everyone likes it! Well, everyone except a handful of middle-aged men who won't watch it because they're scared they might like it. They hate it. But everyone else likes it! Anyway, please watch it! Or don't! I'm not telling you what to do. It's a free world. Well, kind of. I mean, it's not that free. It's kind of a horrible world right now. But the show is a good distraction. But also I mean, definitely don't stop being depressed about the world. That's important. Soooo...yeah. Have a nice day! Unless you don't want to. In which case, have a shitty day! I hope this post pleased everyone. I'm sure it did.
#TimeBandits @appletv Maybe but don't definitely watch it on Apple TV+.

Hamm is joined in the cast by Wil Wheaton (*Star Trek*), Felicia Day (*Supernatural*), Kristian Nairn (*Game of Thrones*), Emily Axford (*Adam Ruins Everything*), Anjali Bhimani (*Ms. Marvel*) and Mark Daugherty (*Captain Marvel*). Producers are Hamm, Kushner, QCODE and Temple Hill Entertainment. The series will debut on August 12th.

Hamm, coming off 2024 Emmy nominations for both *The Morning Show* and *Fargo*, said: “It was great to delve into the mystery of Dallas Egbert with this talented team and group of actors. I’m excited for listeners to follow the journey of William Dear and immerse themselves in the series.”

= Cast Cards =

Our friend [@melvisik](#) is keeping our Cast Spotlighted with more Cast Cards, this time of Stu Turner, another casting director that got snubbed by the Emmys.

annnd Tino L. "another stand in (according to <https://ofmd-crew.com/>)."

Created, written and directed by journalist and author David Kushner, the series is based on his research and writing about hit game Dungeons & Dragons, inspired by the real-life missing person case which inadvertently made the game (in)famous.

Set in 1979, the series gives listeners a behind-the-curtain look into the world of Dungeons & Dragons, told through the lenses of private investigator William Dear (Hamm), a swashbuckling style tough guy and creator of the game Gary Gygax (Wil Wheaton). The series follows Dear on his quest to find Dallas Egbert, a Michigan State student, who supposedly disappeared in the steam tunnels under his University while enacting a real-life version of D&D.

No person is 100% healed, because healing isn't linear. We go backwards and forwards and sometimes we're all over the place; but that's the process. Please don't think you need to be 100% healed to deserve love and good things in life, because you absolutely do.
