== Love Notes ==

Hey there lovelies! It's the weekend for a bunch of you! Huzzah! Hopefully this week wasn't too crazy for you and you're getting a chance to take a load off!

Tonight I really just wanted to say thank you for all your kindness. Seriously. You all remind me every day that the world isn't a dreary place, but one filled with wonder, light, and good-intentioned people. Whether you're sending @ofmdlovelyletters to crewmates, or sharing artwork/fics, or making beautiful gifs, or sharing stills, sending a quick dm to check in on folks, or a comment with something kind, you are making the world so much more manageable.

Sometimes when I'm having a bad day at work, even if I don't have time to interact much, I just

I can feel the love, even when it's not directed at me, that's how much love there is out there. It's like coming home to a warm fire and a soft rug to lay on and a blanket, and a cup of hot tea to warm the soul.

You all make so many tiny waves each day, and those waves come back and go on to make other waves, and there's nothing more wonderful than someone being kind when they could have been harsh. You make the world a better place. You make this world worth living in, and fighting for, and full of hope.

So yeah.. I just wanted to say thank you lovelies, you truly have helped so many people through so many things you'll never ever be able to comprehend, and you do it with love. Thank you for being kind, and loving, and you <3

PS: This made me think of you all, thank you for being that reason for me and so many others <3
