== Love Notes ==

Happy Friday Lovelies! I realize this recap is for weds and thursday but I'm gonna roll with it! I hope the rest of the week was kinder to you than the previous parts of the week.

Please know we're thinking of you crew, it's okay if you're keeping low on the radar of fandom at the moment. It's also great if you're out honking your nose off! Whatever you're doing is what you need to do, and don't let anyone tell you any different.

I know sometimes it seems like things just keep getting worse, lovelies, the world is a chaotic place, and it's okay to sit with your feelings and feel that. Just remember you're loved and it can and will get better one day.

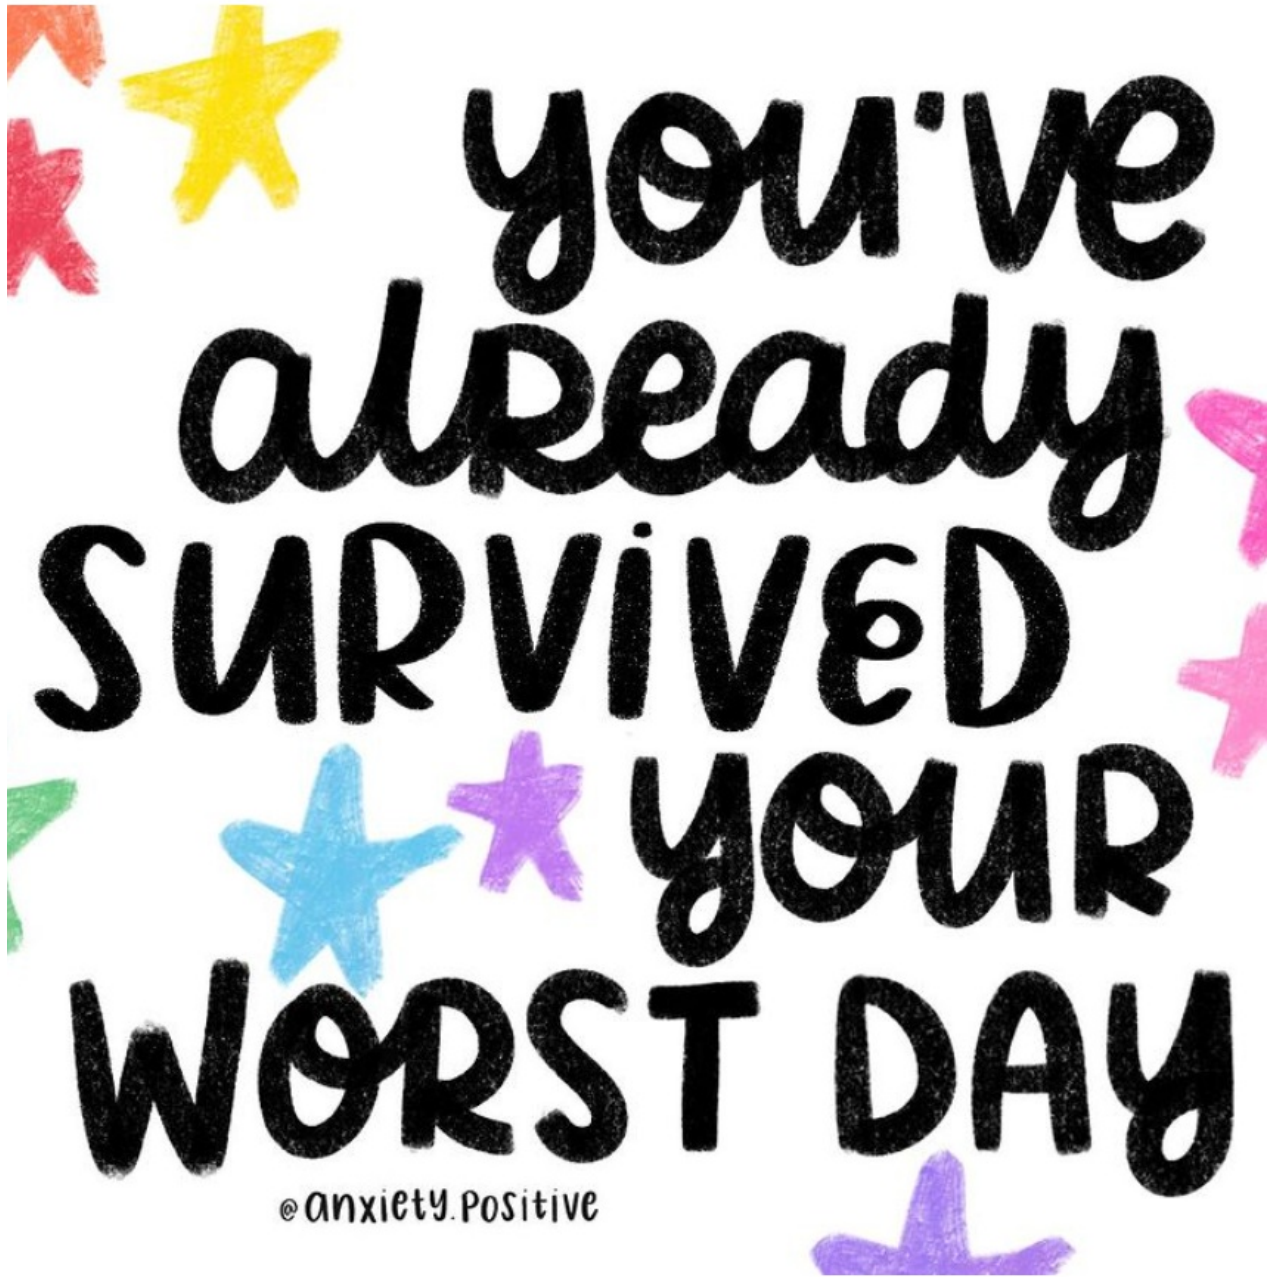

There will always be high points and low points in this life, that's just how it goes, but how you cope with those points changes for the better each and every time they pass.

Remember you are wonderful, and you are strong, and you're gonna get through whatever you're dealing with, okay? Sending love and hugs, and all the good vibes into your weekend <3
