Let's start making this a bit of a choose your own adventure. Who do you think should travel into the void to find CF4?

The votes are in!

Who should enter the void to find the lost robot while the other two set up the massive antenna which will enable cross-dimensional comms?

Rhys 26 votes

Buttons 6 votes

Dan 3 votes

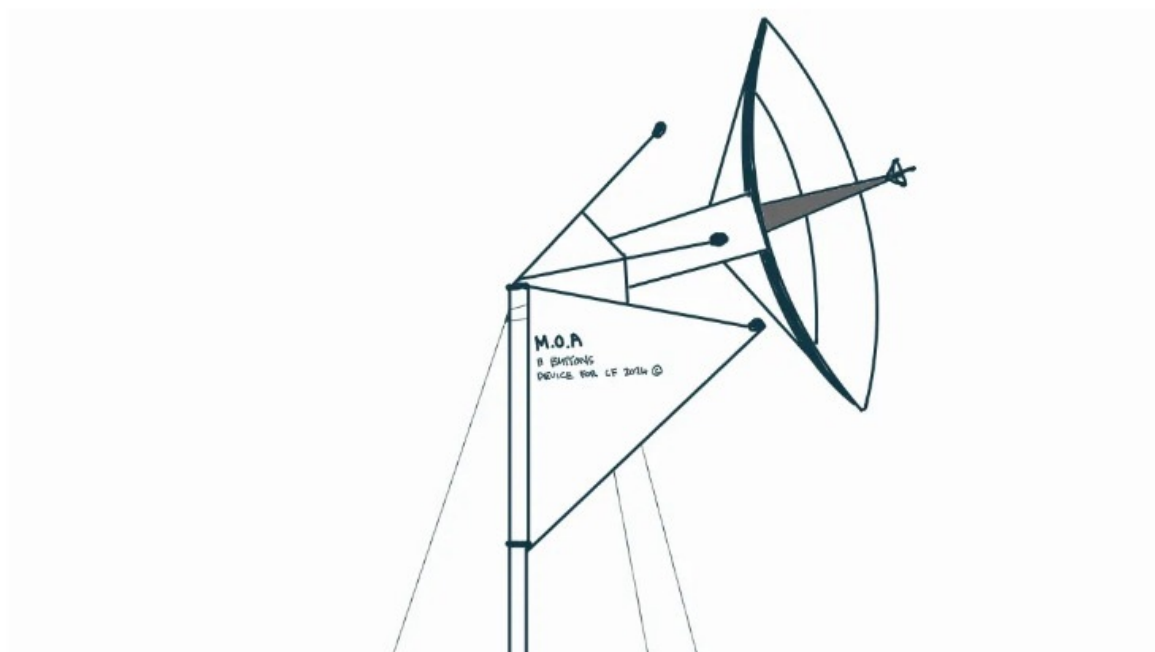

So there we have it! And well done to those who rightly stated that Rhys could erect the MOA himself (with Dan of course reading the manual) as RD is an ex Signals man.

However, Rhys would not be happy letting Buttons go. He'd be too worried about him. Plus he's the adventurer, I mean, he has the hat and canteen bottle all ready!

Those of you that chose Dan for the mission, zero points for you! If this was a choose your own adventure, your book would've ended on the next page!

Okay, I'm boarding a plane to London now, so here's a quick Doodle.

Catch you tomorrow!

**THE LEGENDARY #100 FULL LENGTH LIVE SHOW**  
4 hours ago

In honor of the 100th episode -- there's new merch on [The Cryptid Factor Website](#) as well!

Halina, (Buttons daughter) also upgraded things and even added a Cryptid Museum section! And if that wasn't enough, Dan decided to drunk dial Buttons and Halina, in celebration of the 100th episode release! Shenanigans ensued-- including a guest appearance from Rosie! (Rhys was jet lagged and asleep so he wasn't able to join).

## == Love Notes ==

Tonight's love notes were recently share by our dear Pirate Queen Ruibo. It really helped me get through the last couple days so I wanted to share it. I hope you all are staying safe and being kind to yourselves.

The opposite of trauma isn't "healed", it's *aliveness*. The opposite of trauma isn't "healed", it's **connection**. The opposite of trauma isn't "healed", it's *curiosity*. The opposite of trauma isn't "healed", it's *play*. The opposite of trauma isn't "healed", it's **presence**. The opposite of trauma isn't to find perfection, to become a contained or even calm version of ourselves. But rather, it's where we begin to experience what couldn't exist when all our body could do was survive.
