Our friends over at [@adoptourcrew](#) brought this great article to everyone's attention! Agreed! It is VERY natural looking and good god is he hot in it! The wig department

deserved an Emmy.

**4. "Taika Waititi's as Edward 'Blackbeard' Teach in *Our Flag Means Death*. It is very natural-looking and just gorgeous (as is Taika)."**

"That wig was so glorious, it was like a character unto itself."

In 2022, Taika told [Entertainment Weekly](#), "It was very annoying to wear the beard and the wig. No one ever likes it. Also, you can't have a real conversation with someone because all the glue keeps your whole face tight, and as soon as you actually smile properly, it breaks all the glue, and things start peeling off."

## == "DILF" Awards ==

Well, apparently the "DILF archive" results that were going on, really left many of our crew frustrated with where our dear cast fell. Seven\_sugars on twitter has rectified that issue and was kind enough to make some Our Flag Means DILF awards for our various D's out there!

Before I link under the cut, lemme explain some things.

## == Love Notes ==

Hey there lovelies. I wasn't sure if I was going to get these done in time tonight... what with how behind I am.

I know that a lot of us are all very worried about what's going on in the world, and specific in the US with the presidential elections about to happen. No matter what the results are, I know it doesn't just affect the U.S., it affects the whole planet. So many of our crewmates from around the world have been sending support and love, and I'm so very thankful to have the honor of knowing you all.

Just remember, that no matter what happens tomorrow the 5th, you all are just as strong, and resilient and beautiful as you were yesterday. We are going to make it through whatever happens.

Remember to lean on your crew if you need help, we're here okay? We are stronger in numbers, and we care about you <3

Additional love note tonight from our friend [@illustrystoryart](#) with Nadja!
