We don't see our beloved writer, Zayre Ferrer come out too often, but they popped out to share this wisdom with us. they recommend reading "Let's Move The Needle: An activism handbook for Artists, Crafters, Creatives, and Makers" by Shannon Downey. I've already got my audible copy, there's physical, digital, and audio available.

## == Love Notes ==

Love Notes are going to be a bit different tonight. So much of the cast sent love so I wanted to share them here.

I am not going to be able to say anything more than what they've said, but I want you to know this.

I know you're all hurting so much. You have every right to be angry and frustrated, and scared. Take some time to yourself. Get some rest, create something, drink water, take your meds.

Fall back on others for help. You mean so very much to so many of us, and we will feel the loss of any single spark of you so profoundly. You are wonderful and worthy of this life, so please live out of spite if you have to-- but please don't leave us. We'll figure this out, and we'll fight what's coming, and we'll fucking win.

I'm including some resources under the love notes for mental health, activism, and support lines. Please feel free to share more if you have them.

We love you crew. We love you, and we care what happens to you, and we will link our arms and fight for you. Feel your fear and despair today, maybe even for a week or so, but come back refreshed, and rested, and know we're here waiting, and fighting with/for you. We will make it through this together.

in times of great confusion, we ask ourselves - what is the delineation between faith and knowing? what is ego constructed thought vs heart centered intuitive awareness? the logical mind will keep us in loops of desire and wishing, but if we learn how to listen, the heart will hear what is true even when it's not what we prefer. we go further and further outwards into seeking, forgetting the world is a mirror of our deepest hidden beliefs. what projects onto our reality is the contents of the subconscious dross that we deny or attempt to keep hidden. the deeper work now for all of us is in clearing any remnants of judgment and the illusion of separation from within. go deeper, as will i. i love you. we are one. we got this. ∞ ✨ ❤️ |

*"There, peeping among the  
cloud-wrack above a dark tor  
high up in the mountains, Sam  
saw a white star twinkle for a  
while. The beauty of it smote his  
heart, as he looked up out of the  
forsaken land, and hope returned  
to him. For like a shaft, clear and  
cold, the thought pierced him  
that in the end, the Shadow was  
only a small and passing thing:  
there was light and high beauty  
for ever beyond its reach."*
