Back in the Moonbase Lunar Lounge, the conversation is soon flowing as fast as the drinks..

I hate to ask.. but what happened to the three chaps I sent to Earth to collect you?

Umm.. They decided to stay a little longer.  
Earth is a rather captivating place you know.

Yes, well.. That's why we intend to invade it.

You could just enjoy it with us.. ??

**== Love Notes ==**

Hey there lovelies. I have been having a bit of week so I'll be brief so I can make sure to

get this out tonight. We are coming to the end of the year, and I hope very much that

**PATCHWORK PIRATE BEAR**

you are being kind to yourself.

Please oh please give yourself a hug tonight, drink some water, or some tea, and have one of your favorite treats. The new week is starting soon and you'll need your strength.

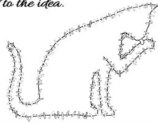

Be good to yourselves <3 Sending hugs your way.

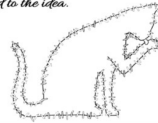

Every pirate captain, captains pirates differently. Traditionally, piracy is a culture of abuse... floggings, keelhauling. And my thought is, "why?"... and also, "what if it weren't like that?"...

For example, if your average pirate doesn't steal, he doesn't eat. That's a lot of mental pressure. So, I pay my crew a salary. Same wage every week, no matter what. Of course, it took them a while to come round to the idea.

"Avast ye!" I snapped. The smell of death permeated the room, electric in its tang. "P-p-p-please don't kill me!" Nigel whined, having sailed himself.

June the third. An excellent day! Raided a commercial vessel after overwhelming the hearty crew. We claimed a prize of lush vegetation in conquest.

They'll never forget the Eccentric Pirate Bonnet and his savage, insane, vengeful pirate horde.

I've included some amenities on the ship that I think will please them. Rec center, state-of-the-art on suite, non-human, the bathroom, jam room. And, of course, a full library. The crew is free to borrow books whenever.
