== Love Notes ==

Hey Lovelies! It's the weekend! I hope you had such wonderful experiences in reminiscing about our show on the anniversary! I have said it before, and I'll say it again, this show changed my life. It changed so many lives, and helped so many people feel comfortable in their own skin. It has truly been a gift to humanity and continues to give us love and hope every day.

I am so very grateful that this show got the two seasons it did, because I ended up getting to meet all of you because of it. We are such an amazing crew, and we have accomplished so much in the art world, as well as the fundraiser world. You all are shining examples of what humanity can be when love and kindness wins. Remember that when these hard days come along and all feels overwhelming. You are the light in the dark times. You make REAL change.

Special thanks to every member of this fandom for all you do every day, as well as the fan crews out there that are still active, [@adoptourcrew](#) or no longer active [@renewasacrew](#) [@saveofmd](#) / OFMD Fan Crew for all the engagement and love you've spread over the last few years. We appreciate all your leadership and support <3

Love you crew, Happy Anniversary to our little Gay Pirate Show.

Oh, and Ruibo Qian, our pirate queen posted these two Love Notes that day so I wanted to share them <3
