Hey loves, I realized I only posted my update on tumblr, so here's the TLDR version--  
New Uni-Con Recap is almost done, waiting on some last permissions. End of June is a combo post! May do a big old July Edition to catch up quicker, we'll see. Hope yall are hanging in there!

### = David Jenkins =

Dearest David responded to some fans and shared a lovely gift he got from the crew at The New Uni-Con!

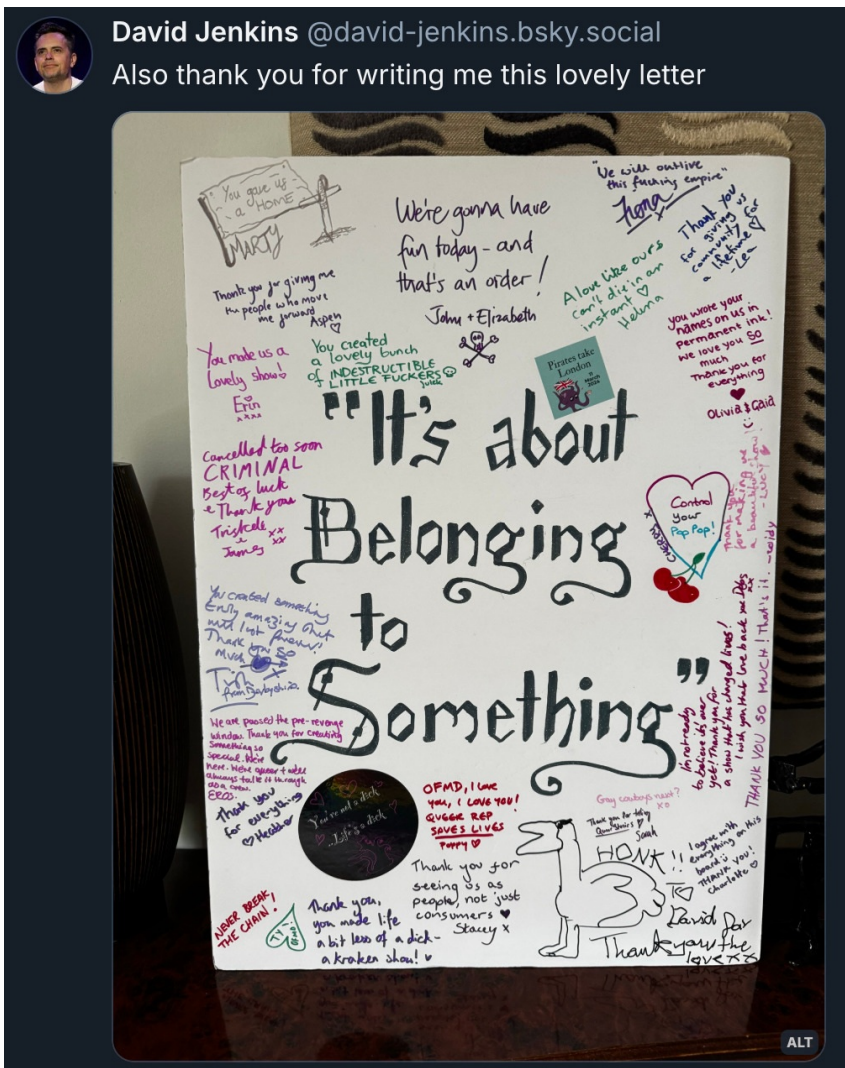

**David Jenkins** @david-jenkins.bsky.social

You all gave me a really good reason to see my friends this weekend (Dave, Ruibo, Nathanielson, Conathan) and I thank you for that

Let's all hang in. Life is still beautiful when we can reconnect with our mates

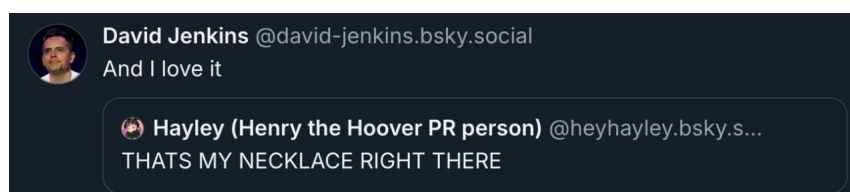

**MoxxieMeow** @ajoyce.bsky.social

I wonder if the OFMD cast & crew realise how much heavily lifting they're doing of people's mood right now. I've had a really overwhelming week where my mum was diagnosed with terminal cancer and everything at work has exploded. I walked into the weekend feeling hopeless and now I feel lifted again

Some of our dear crewmates noticed David was wearing their necklace! I love with our cast carries and wears some of our crewmates work! So happy for you [heyhayley!](#)

David has even responded to some allegations that he is in fact just a catboy.

Source: [David's Bsky](#)

Dearest [@treasureandrum.bsky.social](#) posted a very lovely edit that showed some of the gorgeous light and dark parts of the show, and David adored it! You can [watch it here!](#)

Dearest Chaos Dad has been keeping up with his namesake after the New Uni-Con and been causing some trouble on bluesky. Love to see it David <3

Something I couldn't pass up with sharing, is he had a great time with the Jeffrey

= Rhys Darby =

Rhys spent most of the end of June doing lots and lots of comedy in the UK. The sheer number of pics from instagram he posted, and substacks has been massive! I'll try to get as many as I can listed!

## Edinburgh festival 2025: 20 golden comedy shows to see this summer

### Rhys Darby: The Legend Returns

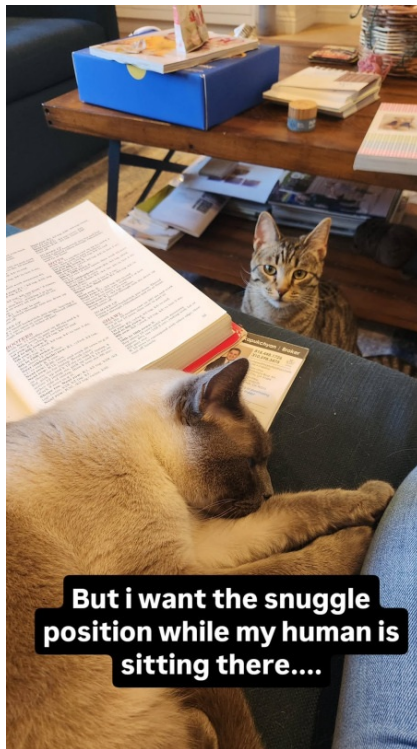

Before he was a star of *Flight of the Conchords*' sitcom and pirate comedy *Our Flag Means Death*, New Zealander Darby was a human cartoon, his stage performances silly symphonies of antic mime and sound. His new show revives that shtick after a 13-year hiatus to address the spectre of AI ...

## = Love Notes =

Hello lovelies. It's been a heck of a while. Every time I try to catch up, life decides to hamstring me again-- but you know what? That's normal. Life is chaotic, and we continue to see the world changing around us, not always for the best. I'm not around much right now, but I still see so many of you on IG or random notifications across the socials still doing such wonderful things.

Whether that's fighting for change, advocating for those who can't advocate for themselves, spreading joy and sharing in the struggles of our crewmates, or creating light through craft, word, or art even on the darkest days.

When life throws more at you, please remember lovelies that you are doing all you can, and you should be proud of that. There are those who will tell you you're not enough, that you should always do more-- but you know yourself best. You know your limits, even if the world has tricked you into thinking you don't.

You are light, and love, and kindness and even when it doesn't feel like it, you are doing your best.

Sending you so much love, hope to see you more often soon <3

Tonight's "picture" love note is from our dear Chaos Dad:

### ***Our Flag Means Death***

*Our Flag Means Death* only got two seasons at [HBO Max](#), and while we could have sailed forever with the crew of the *Revenge*, the series ended with pirate loves Stede Bonnet ([Rhys Darby](#)) and Edward "Blackbeard" Teach ([Taika Waititi](#)) settling on shore to open their own inn. How that would come together is something we would have loved to see in a spinoff, as they would have surely welcomed some interesting clientele. While this sounds like a continuation, the completely shifted location and story could be angled as more of a sitcom about running an inn. And let's be honest, we'd all be better off with a little more Stede and Blackbeard on our TVs.
